

In order to clarify **repeatedly occurring rumors** issued constantly by the Guangdong based company Lite Audio, herewith **MUNDORF EB GMBH** expressly notifies as follows on that.

**1st.** > For some 3 years now, Lite has no permission no more to offer or to sell any **MCap**. Thus, their caps **would not** carry the fraud-proof holographic **MLogo** sticker which we introduced to the Chinese market when we introduced LOWTHER China as our sole distributor for China and HK.

**2nd.** > Lite Audio claims GAD Viva Caps are being manufactured by the same German company as **MCaps**. That's definitely **not** true but deliberate falsehood. Moreover, when looking for an alternative 'in-case-of-emergency' manufacturer, all other possible German manufacturers failed to manufacture **MCaps** according to our quality standards regarding both audibly and technologically in respect of the Silver/Gold coating and, handling the oil respectively.
